Bringing Balance to Your Community

WHO WE HELP

Kids, aged Pre-K to 12th grade who struggle behaviorally, socially and academically:

Lack of Focus • Impulsiveness
Tantrums • Learning Challenges
Family/Social Relationships

WHY IT WORKS

Brain Balance puts the brain back on track.

Poorly functioning brain:

Left and right sides pass on partial information.
This is the root cause of many types of learning, behavioral and social struggles.

Properly functioning brain:

Both sides of the brain communicate equally.
